

QA/Developer Interns

mobi is currently hiring QA Engineers to join our team of technical professionals. mobi is a company of talented and focused individuals who thrive in an aggressive, fast-paced environment. The company attracts experienced, hardworking people who can contribute significantly to rapid growth. We are always looking for cutting-edge innovators - those who are excited by our unique vision and possess the skills, motivation, and experience to help us achieve that vision. Since 1996, mobi has become a leading provider of scheduling, planning and routing optimization solutions for customers in a wide range of industries. mobi's solutions provide a competitive edge for leading companies in markets ranging from broadband to home services.

We are looking for interns to perform both testing/Quality Assurance tasks and/or development work. These positions require strong technical knowledge. This is a great opportunity to gain real world experience working on a technical team.

This is a part time position with flexible hours (during the normal workday), with the opportunity to work full time during the summer months if desired.

Desired Skills/Qualifications/Responsibilities:

- Strong object-oriented design and coding skills (Java preferred)
- Ability to effectively articulate technical challenges and solutions
- Setting up dev/test environments
- Cleaning up existing documentation and assisting with writing of new documentation
- Current graduate or undergraduate student in MIS or CS
- High level of computer proficiency including MS Office, and SQL
- Excellent problem solving and both written/verbal communication skills
- Must be a quick learner and self-starter with the ability to work in a fast paced environment
- Ability to work independently
- Ability to analyze, organize and integrate information clearly, quickly and consistently.
- Ability to work with a wide range of people and to work fast and effectively under deadlines
